

Certificate of Composition

Atlantis Products

Atlantis Corporation Pty. Ltd. as an Ethical, Environmental and Sustainable (E2+S) Water Management company certifies that the Atlantis Matrix/D-Rain Tanks, Turf/Gravel Cell and 30mm Drainage/Flo-cell are made up of a minimum content of 98% of the highest quality grade Recycled Post Consumer / Post Industrial Polypropylene. A variable percentage difference is composed of Carbon Black depending on the application requirements, for material stability and protection of degradation from UV rays.

More information is available on request and contained on the products MSDS as well as from our office.

Disclaimer note: This document does not constitute a warranty or guarantee of any sort, only a certificate related to the composition of the material. If this is required please contact Atlantis Corporation Pty. Ltd. for more details.
